

More Support for Champlain

Ontario is helping the Champlain Local Integration Health Network (LHIN) and LHINs across the province provide more seniors with at-home care, reduce unnecessary emergency room visits and readmissions, decrease the number of patients waiting for alternate levels of care, and increase local mental health and addiction services.

This investment is helping deliver on [Ontario's Action Plan for Health Care](#) by providing the right care at the right time, and in the right place. The Champlain LHIN is receiving an increase of more than \$11 million to fund local programs this year. This additional funding will be used in the following ways:

Population Served	Health Service Provider(s)	Description of Services	Total Annual Funding
Seniors	Champlain Community Care Access Centre	<p>These services are delivered through a variety of programs across the region, with the aim of supporting seniors' transition from hospital to home. For example, services assist clients with moderate to high needs either avoid unnecessary hospitalization, or once in hospital, go home sooner with appropriate supports in place.</p> <p>The broad range of services includes in-home therapy services (rehabilitation and in-home safety assessments), post-surgery wound care and better coordination of home and community care to prevent re-hospitalization.</p>	\$7,150,000
Seniors and adults with disabilities, living at home	<ul style="list-style-type: none"> • VHA Health & Home Support • Ottawa West Community Support • Marianhill, Inc. • Williamsburg Non-Profit Housing Corporation • Carefor Health and Community Services - Eastern Counties • Rural Ottawa South Support Services • Mills Community Support Corporation 	<p>Personal support and respite programs offer assistance to clients living alone, and caregivers in need of respite. Services include grooming, dressing, bathing, transferring, bed care, medication compliance, blood sugar and blood pressure monitoring.</p>	\$1,056,880
